Internship

Full Stack Web Developer Intern **Oct 2025 - Nov 2025**
Future Intern

- Contributed to the advancement of the organization's robust web-based management applications using the **MERN stack (MongoDB, Express, React, Node.js)**.
- Improved user experience and productivity by implementing comprehensive row grouping and data filtering functionality using **React Ag-Grid**, enabling faster navigation through complex datasets.
- Enhanced application performance and record load times by implementing server-side pagination and optimized **NoSQL queries in MongoDB**, increasing overall system efficiency.
- Wrote React unit test cases using **Jest and Enzyme** to validate grid responsiveness, evaluate data filtering logic, and verify the accuracy of **REST API calls** to the database.
- **Created mocks, stubs, and spies** to isolate dependencies, simulating diverse data scenarios to ensure the delivery of robust, stable, and production-ready code.

Projects

FindStyle | Django (Python), PostgreSQL, HTML5, CSS3, JavaScript **Jan 2026 - Feb 2026**

- Architected a multi-vendor e-commerce platform featuring a dual-user ecosystem with personalized dashboards for storefront management, global inventory, and revenue tracking.
- Engineered complex business logic for dynamic product variants and multi-stage order tracking (Pending, Shipped, Delivered) with a secure, multi-method checkout process.
- Integrated RESTful APIs for real-time pincode validation, verified-purchase reviews, and automated email notifications to enhance the end-to-end user experience.
- GitHub Repository Link: **CODE**

Employee Management System| HTML, CSS, PHP, MySQL, XAMPP **Feb 2025 - Mar 2025**

- Developed a secure management system using session-based authentication to safeguard sensitive payroll data and user credentials.
- Streamlined personnel administration via high-integrity CRUD interfaces to manage 100+ records, including salary and corporate structures.
- Implemented Role-Based Access Control (RBAC) to enforce strict data confidentiality and prevent unauthorized access to private information.
- GitHub Repository Link: **CODE**

Certificates

Cloud Computing **Apr 2025**
NPTEL — *Certificate Link*

Salesforce AI Associate **Dec 2024**
Trailhead — *Certificate Link*

Technical Skills

Languages C++, Java, JavaScript, Python, HTML, CSS

Technologies/Frameworks: React JS, Node JS, Django, Laravel, Salesforce

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design

Education

Lovely Professional University Punjab **2023 – Ongoing**
Computer Science and Engineering — CGPA: 6.24 Jalandhar, Punjab

Narayana Junior Collage **2021 – 2023**
12th with Science — Percentage: 87.6% Tirupathi, Andhra Pradesh

Sri Chaitanya School **2020 – 2021**
10th with Science — Percentage: 96% Tirupathi, Andhra Pradesh
